Subject: Information request to PTPC
Attachments: Request for further information 12march2009.pdf

Eveleen;

It was good to talk with you by phone a few days ago about PTPC's prog
BART questions. I do appreciate your help to answer the questions we
at Ecology. A final written request letter is in the mail. A pdf of

I also appreciate your willingness to look for any existing informatio
possible improvements to the recovery furnace ESP and the power boiler
capability. You mentioned that there might be some useful information
evaluation of these controls a few years ago to meet upcoming MACT lim

Ecology has a scheduled a second review session with the Land Managers
determinations for 3 additional BART projects next Monday, March 16.
ammonia issue in PTPC's visibility modeling probably will be brought u
be able to discuss PTPC's response to our requests. Although a final
this meeting, we would like to know how PTPC plans to address the NH3
timeline for your full response would also help us plan when we can wr
determination and send it to EPA R10.

Thanks again;

Bob Burmark
